LEUCO Quicklock Hydro Planing Cutterhead

Inhalt / Content

The new Quicklock Hydro Planing Cutterhead by LEUCO offers many handling advantages compared to conventional hydro planing cutterheads. Thanks to the high-quality processing, the Quicklock cutterhead works extremely economically with perfect surface quality even with feedrates up to 300 m/min.

Application

- for planing of soft and hard woods on molders and high-performance planing machines

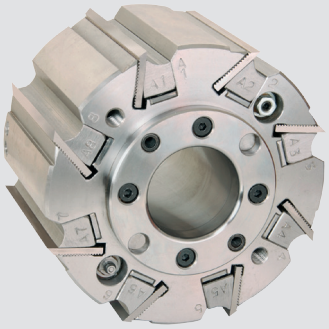

Design

- exact positioning of the knives thanks to serration on the back
- quick-clamping system of the knives via impressurement
- special design of the body which is made from high-tensile steel

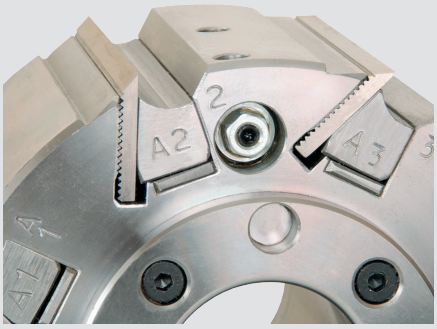

Benefit

- simple handling
- quick knife change without any setting gauges (automatic positioning)
- large wood chip discharge for optimum milling and low cutting pressure
- smooth surface quality
- economic system: new tool, set-up costs and operating costs
